Preface

Dear SHARE'er,

Your studentlife is about to start! The studentlife does not only mean studying, there is so much more next to that part. SHARE organizes several activities during the academic year. During these activities you get to know your fellow students, but you also get to know the study in another aspect. The activities we organize are for example: study related activities, a studytrip, a ski trip, several drinks and a gala. Besides that SHARE also organizes The Health Business Week.

To organize such activities we compose committees every year. You can also join a committee as a freshman! Every committee will be responsible for its own activities. This book will describe the several committees this association has to offer. So if you would like to be part of a committee, do not doubt and subscribe! Being part of a committee is so much fun and besides that you will improve your organizational skills! If you are interested, read this book and think about which committee suits you best and which position you would like most.

When you have decided that you would like to take place in a committee you can subscribe by filling in the application form that you can find at the end of this book. You can send your form to Board@share-fa.com or you can hand it in at Bayle building J7-05. That is where our boardroom is! Do not hesitate too long, because the deadline for handing in your form is the 11th of September.

If there are things unclear or if you have got some questions for us, you can always find us in the boardroom (Bayle building J7-05). You are also welcome if you want to have a nice chat about anything else.

With love,
The 35th f.t. board of SHARE
